### WORK EXPERIENCE

#### FreshFind

Jul 2022 - Current

##### *Developer & UX Design Consultant*

Responsible for improving the front-end customer experience in several sections of the FreshFind website and back-end portal to the vendors. Direct wire framing and UX design, implement regular updates and maintenance, refresh outdated sections, and design new elements of the application. Ongoing updates also includes layout and design considerations for social media integration.

Actively using Bootstrap, HTML, CSS and Ruby on Rails.

#### Peel Plastic Products

Apr 2019 - Dec 2021

##### *Graphics Coordinator*

Actively improve and execute the pre-press process in the flexographic printing industry, including print and ink trials, and color-matching techniques to set the benchmark in the industry.

Work directly with clients to ensure desired package design is achievable and printed to company standard.

Gained skills such as problem solving, client relationships, leadership and flexibility.

#### TheAppLabb

Jan 2017 - May 2017

##### *UI/UX Intern Designer*

Worked directly with Lead UI/UX designer on multiple app projects from concept building, to wire framing, designing and packaging files.

Created all new visual content for TheAppLabb website and social media channels including Instagram and LinkedIn.

Gained technical skills such as adobe xd, photoshop, invision, and Axure Pro.
